

**COMPANY HIGHLIGHTS**

**Past Producing, Permitted Nickel-Copper-PGM Mine in Sudbury:** Major permits already in place for a 4,500 tpd open pit mine, processing plant and tailings storage facility.

**NI 43 101 Existing Resource:** Including a 14.4Mt Indicated Open Pit Resource at 0.63% Ni Eq.

**Experienced Board & Management Team:** Mining operations and exploration experience at FNX, Vale and Inco.

**Ni-Cu-PGM Deposit with Multiple Revenue Streams:** Potential for two separate, clean, high grade concentrates (Ni and Cu) to be produced, with significant Pt, Pd, Co & Au credits.

**Outstanding Exploration Potential:** Resource expansion potential, plus near mine and regional drill ready targets over a 180km<sup>2</sup> land package.

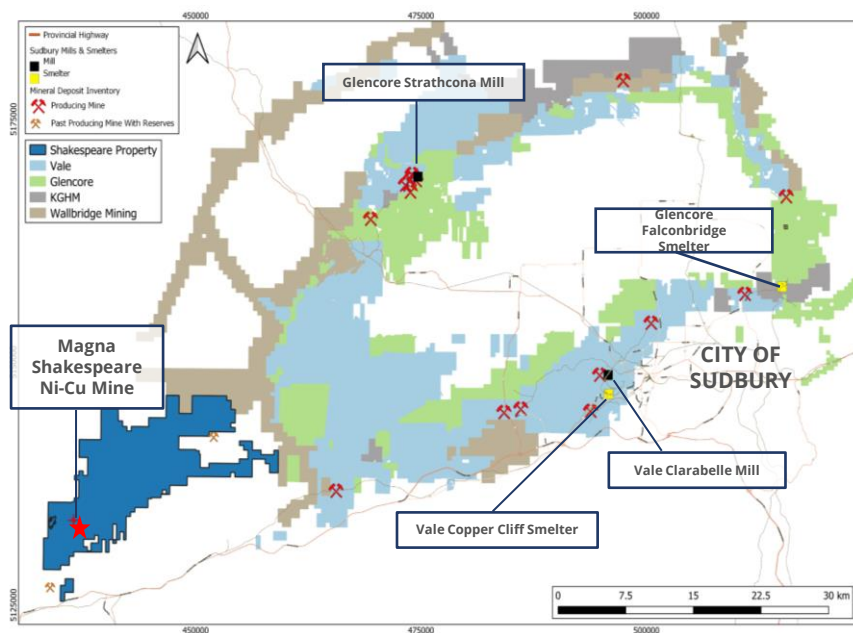

Shakespeare open pit mine, 2021

Current drill program at Shakespeare, May 2021

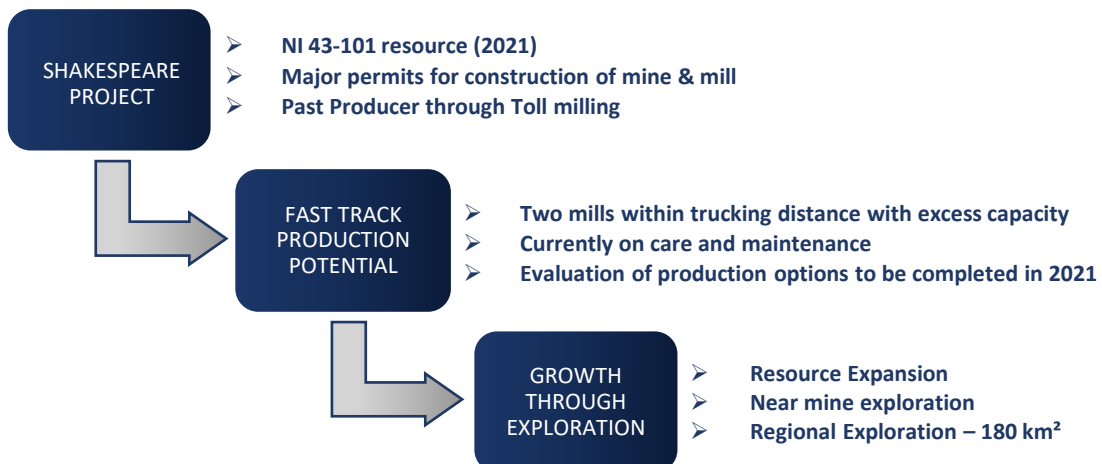

**STRATEGIC LOCATION**

- 181km<sup>2</sup> land package including 30km of strike of underexplored, prospective geology immediately to the west of the Sudbury Basin
- Proximity to Trans Canada Highway, rail and power
- Within trucking distance of milling and smelting capacity in Sudbury

**MAGNA'S SUDBURY FOCUSED GROWTH STRATEGY**

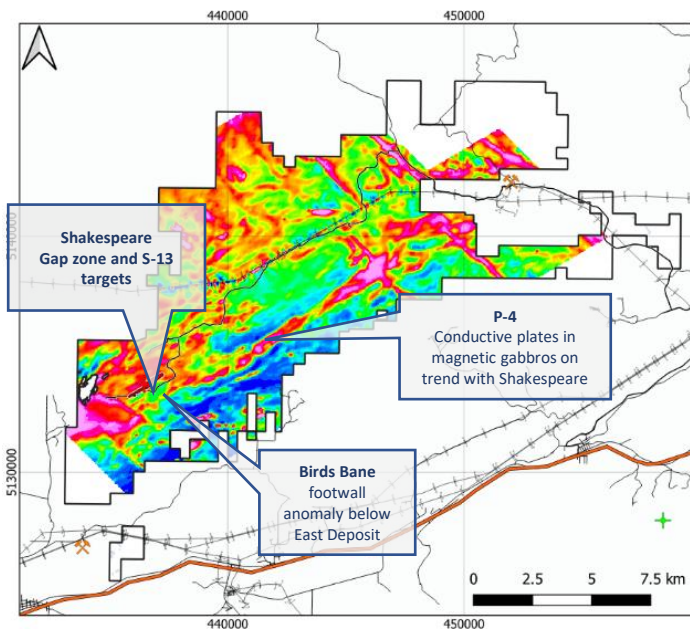

# EXISTING NI 43 – 101 RESOURCE

| Category                                       | Tonnes (Mt) | Ni (%) | Cu (%) | Co (%) | Pt g/t | Pd (g/t) | Au (g/t) | NiEq. (%) |
|--|-------------|--------|--------|--------|--------|----------|----------|-----------|
| <b>Open Pit (0.2% Ni Eq. cut-off grade)</b>    |             |        |        |        |        |          |          |           |
| Indicated                                      | 14.436      | 0.34   | 0.37   | 0.02   | 0.34   | 0.37     | 0.19     | 0.63      |
| Inferred                                       | 1.682       | 0.29   | 0.31   | 0.02   | 0.27   | 0.3      | 0.17     | 0.54      |
| <b>Underground (0.5% Ni Eq. cut-off grade)</b> |             |        |        |        |        |          |          |           |
| Indicated                                      | 2.489       | 0.33   | 0.38   | 0.02   | 0.31   | 0.35     | 0.19     | 0.62      |
| Inferred                                       | 2.905       | 0.34   | 0.39   | 0.02   | 0.34   | 0.37     | 0.21     | 0.64      |

(1) Mineral Resources are exclusive of material mined; CIM definitions were followed for Mineral Resources; Mineral Resources are classified as Indicated and Inferred based on drill hole spacing and geologic continuity; Mineral resources which are not mineral reserves do not have demonstrated economic viability. All figures are rounded to reflect the relative accuracy of the estimate. Composites have been capped where appropriate; Open pit mineral resources are reported at a cut-off grade of 0.2% NiEq within a conceptual pit shell; Underground Mineral Resources are estimated from the bottom of the 2018 pit and mineral resources are reported at a cut-off grade of 0.5% NiEq; NiEq Cut-off grades are based on metal prices of \$6.25/lb Ni, \$2.80/lb Cu, \$31.00/lb Co, \$950/oz Pt, \$900/oz Pd and \$1,250.00/oz Au, and metal recoveries of 76.4% for Ni, 95.9% for copper, 71% for Co, 74.8% for Pt, 42.4% for Pd and 38.4% for Au. The resource estimate was prepared by Independent Geologist Allan Armitage, Ph.D., P.Geol. of SGS Geostat to NI 43-101 specifications

## EXPLORATION TARGETS

### Resource Expansion targets: Gap & S-13 zones

Drill ready resource expansion targets located below and between existing pits, targeting additional open pit resource tonnage. Targets to be drilled during the Q2 2021 drill program

### Birds Bane Footwall Anomaly

A near mine, mega breccia target identified by a gravity inversion anomaly at 300m depth

### P-4: Potential high-grade satellite target

Drill ready open pit target, identified by high conductance EM plates. Located 1km north of the past producing Spanish River copper mine. Part of the Q2 2021 drill program.

## MAGNA MINING – NICKEL FOR OUR FUTURE

Shakespeare core containing disseminated sulphides

Prior mining operations at Shakespeare, 2010
